

One-Stop-Shop Waste Management

Contract

A Research and Development organisation had set up a new establishment in the region and their aim was to have ONE source for dealing with all their waste.

Solvaste Environmental Ltd was selected on the basis that we could provide the service to manage both the dry waste (non-hazardous) and the Special Waste (hazardous) at the intervals defined

Operation

The dry waste collection are carried out on weekly intervals and the special waste is collected at approximately 6 week intervals.

About once annually there is an ad-hoc collection of laboratory chemicals

Summary

Benefit to the organisation is they want a single source to manage all their waste management activities. Solvaste Environmental Ltd provides the means for delivering a ONE-STOP-SHOP for their waste management.
